

## Automotive

### Night & Day marking

Day & night marking is a very demanding application of plastic parts and it is widely-used in automotive industry and consumer electronics. The laser selectively removes specific lacquer layers from multilayer-coated transparent parts. AREX Mopa 20W proves to be effective in realizing high-quality marks on backlit-elements.

AREX 20 MW

LENS: 160 mm

MARKING TIME: 6,6 s

MATERIAL: Plastic
