Surface marks on car lenses

The EOX family, thanks to the excellent laser beam quality, is capable to mark the surface avoiding to penetrate the plastic . In samples like headlight PC lenses is, the not deformation and the not removal of the material is mandatory, in fact it is very important not to nick the surface of some components of automotive industry.

EOX 30W

LENS: 100 mm

MARKING TIME: 0,3 s

MATERIAL: Plastic, PC
