

COBOT CORE TRAINING

CLASS DESCRIPTION

This intense 2-day hands-on training class will combine classroom instruction with a functional robot on your desk.

There will be one robot for every two students.

Topics include:

- Set-up
- Program flow
- Optimization of sample applications such as Pick-and-Place, and Palletizing.

This class aims to give students a thorough knowledge of the robot so that they can maximize their own robot's value.

TUITION: \$1,000

April 28th & 29th, 2020

SIGN UP NOW! Space is very limited.
