A Tavoron Company

PRODUCTS & SERVICES

PRODUCTS

HTE offers a robust product portfolio of high-performance solutions spanning from Automation to Robotics to Compressed Air and Abrasive Systems. As your trusted beginning-to-end automation partner, we're ready to support you through the sales, implementation, training, and support.

AUTOMATION

Our customers are turning to automation to streamline their operations, increase efficiency, and improve quality while simultaneously responding to industry challenges like labor shortages and supply chain issues. HTE Technologies has the technology, partners, and support team to help you take your automation to the next level.

COMPRESSED AIR

At HTE Technologies, we deliver a wide range of compressed air solutions and equipment for a variety of industries from small shops to large manufacturing facilities. Regardless of your application, we have the technology, parts, and services to keep your operation running.

ABRASIVE BLAST

Choosing the right blast equipment for your application can be confusing. At HTE we have the cabinets, rooms, and systems paired with the media, parts, and accessories to help you get started.

- Barcode & Rfid
- Connectivity & Interfaces
- Conveyors
- Industrial Wireless & Communication
- Machine Vision
- Motion Control
- Robotics
- Safety & Indication
- Sensors
- Accessories & Additional Solutions

HTE Technologies, a Tavoron company, has focused on manufacturing productivity for 65 years as a leading Midwest expert in factory automation, traditional and collaborative robotics, machine vision, compressed air systems, and its unmatched rental compressor resources.

HTE's experienced engineering, programming, fabrication, sales, service, and rental resource teams are all backed by large local inventories of products from industry-leading equipment manufacturers. HTE helps customers overcome CAPEX budget shortfalls, such as rent-to-own, robots-as-a-service (RaaS) and compressed-air-over-the-fence plans, to ensure that customers have access to advanced technology solutions as they compete globally.

SERVICES

We understand that automating your facility is an investment into the future of your business. With technology rapidly changing, it's important to choose a partner who will support you through the life cycle of your automation journey – and that's our commitment to our customers. Whether you need rental equipment to keep your facility running during unplanned maintenance or engineering support to help drive your business forward, our team is ready to get started.

AUTOMATION ENGINEERED SERVICES

Our factory trained technicians provide a complete range of services to optimize your systems performance. Whether you need programming, training or integration, our professional team is ready to help you achieve your automation goals.

COMPRESSED AIR

Maintaining your compressed air system is key to keeping your operations running smoothly. That's why we offer a wide range of services to keep your system performing optimally and most efficiently. Not sure where to start? Schedule an air audit and let our team of experts help.

RENTAL SERVICES

With short-term and long-term rentals available, HTE Technologies has the equipment to keep your facility running, reduce downtime, and meet temporary surges in demand. Contact us to learn more about our full line of rental equipment.

A Trusted Partner

At HTE Technologies, we have over six decades of experience delivering factory automation solutions, collaborative and industrial robots, and compressed air and abrasive blast systems for industries ranging from equipment manufacturers to pharmaceutical and chemical producers in the Midwest. Our broad portfolio of innovative products, backed by our experienced team and our industry-leading network of suppliers, means you can count on us to keep your business running.

That's not all. The HTE team, paired with the Tavoron group of brands, wants to partner with you throughout your automation journey. That's why we offer engineering, programming, fabrication, maintenance, parts, and rental services to optimize your systems performance.

Our Team is Here to Help

Whether you're interested in our products, services, or support – we're ready to answer your questions. With offices located throughout the Midwest, we are ready to help you select the right technology for your facility and support you through your automation journey. Let's get started.
