

RENTAL PRODUCTS & SERVICES

HTE Rental Services provides reliable, durable portable compressors for industries like construction, refining, and pipelines, minimizing downtime and reducing costs. From tough diesel compressors to emergency-ready electric units and extreme-duty pipeline compressors, we have the right solution for any need. With expert support, 24/7 service, and a dependable fleet, HTE is your trusted partner for compressed air solutions.

Portable Diesel Compressors Reliable Performance with Low Operating Costs

Built to withstand tough conditions, our Portable Diesel Compressors deliver reliable performance with minimal maintenance. Key features include:

- Corrosion-resistant steel enclosures for enhanced durability.
- Easy-access service doors for convenient maintenance.
- Durable aluminized fuel tanks designed for industrial environments.

Additional benefits:

- A heavy-duty chassis ensures stable towing.
- A maintenance-free 24-volt battery system reduces downtime and operating costs.

These compressors are the ideal solution for your most demanding projects.

Portable or Stationary Electric Compressors Emergency and Short-Term Rentals

When production demands exceed your capacity or your equipment is down, HTE Rental Services supplies everything you need to deliver clean, dry, compressed air. We offer:

- A fleet of 50 - 450 HP electric powered compressors to meet various needs.
- Air dryers and filters to meet both pressure and quality specifications.
- 24/7 service to minimize disruptions.
- Factory-trained technicians providing on-site support.

We also provide the accessories you need:

- Hoses
- Fittings
- Receivers
- Fuel Tanks
- Valves
- Regulators

With HTE Rental Power Services, you can trust us to keep your operations running smoothly.

Portable Pipeline Compressors Built for Demanding Environments

HTE Rental Services offers high-quality portable pipeline compressors built for extreme conditions, with fully equipped systems, expert support, and everything needed for maximum efficiency—delivered on a convenient step-deck for remote field applications.

Choose from a variety of capacities to meet your needs:

- Standard Pressure - 150 PSI, 1,600 CFM
- Medium Pressure - 350 PSI, 1,150 CFM
- Medium-High Pressure - 500 PSI, 900 CFM
- High Pressure - 2,175 PSI, 1,800 CFM

HTE Rental Services ensures that you have the right equipment to handle even the harshest conditions, keeping your project on track with minimal disruptions.

Our Team is Here to Help

Trust HTE Rental Services for all your portable compressor needs—whether it's for tough construction, refining, or pipeline operations, we provide reliable, efficient solutions backed by expert support to keep your projects running smoothly with minimal downtime.
